

Summer is on it's way!

With the recent warm weather seen across Canada, we can't help but to think summer is on it's way. Green Toys makes a wonderful assortment of toys that are made in the United States from recycled milk jugs. I love their toys because not only are they made of food grade plastic (BPA free, pthalate free, lead paint free) but also because they are made to last a long time. If you have seen any of their toys in person I am sure that you recognized that these toys are about as childproof as they come. Here are a few of their toys that make for great summer play.

[Green Toys Tea Set](#)

There is something magical about having an outdoor tea party. Set up a little picnic table or even toss a comfy blanket down on the grass, set out this solid tea set and let your little one's imagination flow. This tea set includes 4 tea cups with plates, 4 spoons, teapot with lid and a sugar bowl with lid.

[Green Toys Sand Play Set](#)

While sand toys are a popular dollar store item they just don't last and safety is a concern. If you have a sandbox or are a frequent visitor to a beach you'll want to have a good sturdy sand set that will last year after year. The Green Toys Sand Play Sets are just that. They comes with a bucket, sandcastle mold, shovel and a rake.

[Green Toys Recycling Truck](#)

Another great pasttime is “driving” vehicles around the yard. Help your child learn the basics of recycling while having fun! This recycling truck has a moveable bed, and the rear door opens and shuts.

[Green Toys Indoor Gardening Kit](#)

While your waiting for the weather to warm up a bit more, this indoor gardening kit is a great way to welcome a bit of summer indoors early. It comes with 3 planting pots, a trowel, and 3 packs of organic seeds (Teddybear Sunflower, Basil & Zinnia).

Victoria is founder of [Friendly Fish](#), a small Canadian company that carries a variety of Green Toys and many other eco-friendly children’s products. This online store focuses on products made right here in North America.
